A MINE EXPLOSION

Causes the Death of Ten Men.

HUNDREDS PLACED IN JEOPARDY

Heartrending Scenes at the Shaft When the Mangled Remains are Recovered.

SHAMOKIN, Pa. April 1.—A miner's lamp caused an explosion in the Neilson shaft, operated by Langdon & Co., this morning. Many miners in the mine at the time escaped, but twelve or fifteen lost their lives, and a number of mules were suffocated. Owing to yesterday being a holiday, not as many men were at work as usual. Ten dead have been recovered. It is not certainly known whether any more are in the mine, which is burning fiercely with momentary danger of explosion. Despite this, a force of men and officials are battling with the flames and gas. The dead were all found in a vein to which smoke found its way from a vien 200 feet below. A thousand men are out of employment.

Attempts were made to fight the fire, but those who started to do so were compelled to flee for their lives.

Ten men lost their lives while at work nearly 100 feet above where the fire broke out, through the airway of which the smoke poured, suffocating the unfortunates like rats in a trap.

Almost the entire town gathered in the vicinity of the burning flume, where the scenes were most distressing.

About mid-day a rescuing party went down the shaft. When they had proceeded a short distance, under constant danger of suffocation, they came across the bodies of two men locked in each others arms. Further on the bodies of eight more men were found, making ten dead in all.

The bodies were removed to the surface with much difficulty and taken to the blacksmith shops, where the most pathetic scenes were witnessed.

Only two mules were gotten out alive, and there are thirty dead mules in the mine.

USELESS EXTRAVAGANCE.

Secretary Gresham Makes a Startling Discovery.

WASHINGTON, April 1.—Disclosures with regard to the Bering sea commissioners' expenditures still continue to excite surprising comment.

All arrangements for representation by this country at the conference was made by General Foster, and evidently with the determination that its staff should not lack the wealth to make a display. Looking at it in this light there are some people who are willing to admit that the ex-secretary had the right idea, but they think he carried it to extremes. For instance, they do not see why the paymaster of the commission, whose duties occupy no more than one or two days at the outside in every month, should have so large a sum for his expenses over and above a per diem salary; in fact, they fail to see why a paymaster is necessary at all, and his duties could just as well have been performed by one of the clerks, or even by one of the commissioners themselves.

Members of the house who are in the city are outspoken in their protests against the extravagances which the investigations of Secretaries Gresham and Carlisle have disclosed, and there is talk of introducing a resolution in the senate asking for an investigation. This proceeding is discouraged by some, who say it is wholly unnecessary in view of the fact that the two secretaries are doing all the investigating necessary, and when they reach a conclusion they may be relied upon to act quite as vigorously and fearlessly as any senate committee. Moreover, there is a wider spread of a feeling of confidence in Secretary Gresham's ability to get at the bottom of a complication of this kind.

The First Bid.

NEW YORK, April 1.—The Coney Island Athletic Club made a bold bid tonight for the great fight between Charles Mitchell and James J. Corbett. Judge Newton, representing the Coney Island Club, met Corbett and succeeded in getting the Californian to attach his signature to an agreement to fight Mitchell in the Coney Island arena for a purse of $40,000. The agreement signed by Corbett is as follows:

"I do hereby agree to box Charley Mitchell before the Coney Island Athletic club, according to the articles of agreement now signed by Mitchell and myself, the man who is declared the winner by the referee of the club to receive the sum of $40,000.

"JAMES J. CORBETT."

The proper articles will be signed later, in the event of Mitchell accepting the purse offered by the Coney Island Athletic Club. Hammel, Mitchell's advisor in America, cabled Mitchell tonight advising him to accept the offer.

The Month's Money.

WASHINGTON, April 1—A statement of the public debt, giving transactions of the treasury in the month of March was issued this afternoon. It shows a net decrease of the debt of $1,956,172; of this 453,532 is the amount of the reduction of the bonded indebtedness of the government, and $1,502,640 the increase of cash in the treasury during the month. The aggregate interest and non-interest bearing debt on March 31st was $962,328,210; the available surplus in treasury was $25,630,228.

Reward for the Wreckers.

PORTLAND, April 1.—The Southern Pacific Company has offered a reward of $3000 each for the arrest and conviction of the persons who removed the rail from the track near Drain on Thursday night for the purpose of wrecking the northbound passenger train. The company has a well organized posse scouring the country near the scene of the attempted wreck. It is believed they have a clew which may lead to the capture of the wreckers.

In Cold Blood.

VISALIA, April 1.—At 7 o'clock this morning Tex Bronson shot and killed W. H. Harris, eight miles south of this city. The men were in Tulare drank yesterday, and returned home in the night and kept up the carousal, but it is not known that they had a quarrel. Bronson had not been arrested twelve twelve hours after the murder, though officers are in pursuit.

In Spite of Stuffers.

Two well known Democrats who have during the past few days made a canvass of the Fourth and Fifth wards, unreservedly express the opinion that Boss Fahey is certain of defeat, and that in the Fifth Spinney will be elected by not less than a two-thirds vote.

FRANK ELGAN.

He Returned From Hanford and Paid His Bills.

Frank Elgan, the good-looking special policeman who left here recently after having surrendered his star to City Marshal Morgan, returned yesterday.

Two complaints had been filed against him in Justice of the Peace Austin's court charging him with misdemeanor. One of the complainants was Joseph Stock, proprietor of a restaurant at 1,743 Mariposa street, and the other was O. P. Tuller. They alleged that Elgan had left the city with intent to defraud them, they being creditors for goods sold and delivered, etc.

Mr. Elgan was allowed to go on his own recognizance on settling the bills.

He denies several of the statements made concerning his departure and the alleged reasons for it. He says that he did not go away with Mamie Sanchez, but with a gentleman friend of his, and that he went to Hanford on business. He denies also that he was in Miss Sanchez's house when the pistol shot was fired, and alleges that he went off his beat into Chinatown to see Policeman Smith on a matter of business. While in the street he heard the report of the pistol and he blew his whistle to attract the attention of the police.

He proposes to resume his duties as a special on his old beat.

A SEVERE LOSS.

JOE JEFFERSON'S SUMMER HOME BURNED.

A Life's Accumulation of Curios and Valuable Paintings Destroyed.

BUZZARD'S BAY, Mass, April 1.—A fire this afternoon totally destroyed the beautiful summer residence of Joe Jefferson, situated on the shores of Buttermilk bay, and the family cook, Helen McGrath, perished in the ruins.

Miss Simmonds, the housekeeper, Miss Collins, the maid, and Miss McGrath were in the cellar at noon, when Miss McGrath discovered what she supposed to be water covering the floor. She called the hired man, named Wright, who saw at once that it was oil from a gasoline tank. He shouted to the women to flee for their lives, but they s ood dumfounded. The gas communicated with the fire in the furnace, and in an instant a terrible explosion ccurred.

Wright caught Miss Simmonds and Miss Collins and fought his way to the open air.

He endeavored to return for Miss McGrath when he was met with a blinding sheet of flame. Burned and bleeding, he heroically tried to gain an entrance, but was unsuccessful, and the unfortunate woman was left to perish.

When the cry of fire was raised Mrs. Jefferson, who was ill in bed, hastily arose and fled, not stopping to dress. She suffered a severe nervous shock, and medical attendance was summoned.

The children, who were playing in the attic, were the first to escape and seek a place of safety.

A large and valuable painting, which was to have been exhibited at the World's Fair, was totally destroyed, together with Jefferson's costly collection of curios. It is estimated that $150,000 worth of paintings was consumed and the total loss will be $250,000. Jefferson was on route to California, and word was sent him.

LOOTING THE TREASURY

HOW IT IS DONE UNDER TRIANGLE RULE.

Extravagance and Waste in Work ... e Paid for Out of ...

Thirty-four men and four teamsters were set to work yesterday by Boss Fahey filling in a mudhole near the corner of Tulare and G streets.

The teamsters hauled gravel from the cars near by and the twenty-four men—twelve to each wagon—shoveled the gravel on to the wagons with long tailed shovels. They were so much in one another's way that not more than half of them could work at a time while the other half rested or made a bluff at poking their shovels between the legs of their fellow laborers.

The spectacle was viewed by a large crowd who were delighted with this strategic movement on the part of the Boss to get a few votes. It is needless to say that this work did not cost the Boss a dollar. It will be taken out of the city treasury.

One half the number of men could have done the work just as well, and in the same time as that consumed by the thirty-four men.

Such is the opinion of those who saw the work done and who made audible comments on it. It is characteristic of the Boss.

Another job of work was done recently on Fresno street, near the flouring mill. It was lowering some water pipe in a trench across the roadway. This work cost the city 700 per cent more than the same work had cost the water company. The taxpayers had to pay the bill. But, according to the Boss system of politics, everything goes in a municipal campaign.

Another sample of Triangle extravagance and violation of law may be seen in the new city park, which cost between $3000 and $4000, done not under the supervision of the street superintendent and by contract as the law requires, but under the supervision of Boss Fahey. The raw material of the bituminous rock used in the walks cost before it was laid nearly $1400. What the labor of laying it cost, nobody knows.

But the money was paid out of the city treasury, and nobody had a chance to bid on the work.

THE BACK TRACK

As Taken by the Expositor on the Triangle.

A LEAF FROM THE PAST

Unkind Things Said by Boss Fahey's Organ Before He Captured It.

The Expositor, which is now supporting the Triangle with tooth and toenail, had, before it received the city printing contract, denounced the Triangle as unworthy of public confidence.

As after the death of the Review it took the back track in its attitude towards the Free Companions and the court house ring, so now, after the birth of the city printing contract, it takes the back track in its course towards the Triangle. Before that interesting event the Expositor said editorially that the Triangle had in all cases acted in defiance of public opinion and proper consideration for the needs of the municipal government.

In its issue of July 1, 1892, appears the following in an editorial under the heading "The High School Matter," referring to the action of the city trustees:

"There is no argument to justify this going out of the plain beaten legal path to carry out a public improvement. There is no emergency to give it seeming justification. The majority of the city board have proceeded in this matter JUST AS THEY HAVE IN ALL OTHER CASES IN DEFIANCE OF PUBLIC OPINION AND PROPER CONSIDERATION FOR THE NEEDS OF OUR LOCAL GOVERNMENT. With characteristic generosity with the public funds they allowed Mr. Curtis, the architect, more than he charged for his plans."

A little further on in the same editorial appears the following:

"Why should the city trustees manifest such an intense anxiety to boss this job? Is it simply in keeping with their general desire to boss everything that is going on, or is it because there is money to spend?"

In an editorial under date July 6, 1892, and headed "Down Went Fahey," appears the following on the same subject:

"The majority of the city trustees have struck a snag. They imagined that they would have plain sailing in their little scheme to handle the money for building the High school, but they have discovered that there is such a thing as law in the land."

Again in the same editorial: "From this lucid statement it appears that only two courses are open to the trustees. One is to turn the money over to the board of education—or rather transfer it to the school fund—and the other is to spend it all in buying plans from Mr. Curtis and paying him more than he charges for them."

Under date of July 8th the Triangle received another whack as follows:

"But he (Van Meter) cannot afford to let the men who have heretofore opposed him to be his spokesmen and make his candidacy a question of vindicating the ring or Mr. Church for his course as a city trustee. It must not go abroad that Mr. Van Meter is in sympathy with the big -handed proceedings of the majority of the city trustees."

The High school matter is reverted to editorially in the issue of July 26, 1892:

"The trustees were determined from the first to handle and spend the money, and their method of expenditure was illustrated when they paid Architect Curtis more for his plans than he charged for them. * * * But they are bound to spend the money at all hazards."

In the issue of July 27th the Expositor said editorially:

"If the city trustees had exerted themselves as energetically to seek a way out of the High school muddle satisfactory to the public and in harmony with public interests as they have sought for pretexts for spending the money without consulting the board of education there never would have been any trouble nor would there be any necessity for buying a new lot on which to build the school. * * * But the trustees are bound to spend the money."

A BRIBE.

T. P. Mernin was Offered One Hundred Dollars.

Thomas P. Mernin, president of the Laborers' Union, informed THE REPUBLICAN last night that a Triangle supporter attempted to bribe him with money to use his influence to secure the election of Fahey, Alford and Justy.

Mr. Mernin said that this person approached him last Friday and said, "You are accused of getting $100 from the Republicans, but I know a darned sight better than that. I know you didn't get it, but I can give you $100 in less than an hour if you want it."

He then proposed that Mernin should advocate the election of Fahey, Alford and Justy in consideration of $100 to be paid to Mernin by the person approaching him, because, as he said, Fahey, Alford and Justy had promised to give him the superintendency of streets in the event of their election.

Mr. Mernin declined the proposition.

THE CITY PARK.

Those Who Donated Trees and Shrubbery For It.

Among those who have donated trees and shrubbery to the city and which were planted in the City Park are Messrs. Marshall & Wilson, proprietors of the Fresno nursery, and D. W. Lewis. Marshall & Wilson gave the following:

Five lemon trees, 5 orange trees, 2 laurestenas, 6 lilacs, 1 olive, 2 Chamlops palm, 4 rose bushes, 2 hydrangias, valued at $18.

Mr. Lewis contributed 2 palms, 2 loquats, 2 Virginia red cedars, 8 oleanders, 1 Valencia late orange tree, 2 dracaenas; value $17.50.

The liberality of these gentlemen is a precedent which, if followed, will make the City Park bloom as the gardens of Babylon.

A RECENT proverb says: "The American eagul don't squak in a furrin language." It is showing a disposition of late, though, to drop its "h's."

THE coagulated blood of its own party is still upon the knife which the Fresno Expositor is attempting to use in its fight for the perpetuation of the Triangle.

CHIEF CROKER of Tammany Hall is referred to by a Southern paper as "Colonel." That ought to be a passport to some of the good things being dished up at the government commissary.

THE Stockton Mail says that the Chronicle is breaking its beak on the armor of President Cleveland. As Grover does not really wear one of those things or anything else which an angry hen could not penetrate with its beak the Stockton paper evidently refers to the coat of Mail which it kindly throws over the portly President every time it hears a squawk in derogation of his divinity.

THE editorialist of the Los Angeles Express gives away the freshness of his arrival from Kaw valley, Kansas, by remarking that the average cost of trout caught in California by sitting on a rock all day and waiting for a bite is $5 each. California trout caught in that way would not cost 5 cents apiece, for the time of a man who would try to catch 'em by sitting on a rock all day would not be worth $5 a year.

CHEERFUL music—beating the Triangle.—Expositor, July 28th.

Yes, it is quite cheerful, but somehow you do not seem to be enjoying the music quite as well as it was supposed that you would. Your musical tastes seem to have undergone a remarkable change within a few months. It is a surprising change in so short a time, but Mr. Van Meter's explanation appears to be altogether sufficient.

THE Fahey organ is as mum as an oyster about that registration mill which has been run in the interests of the Boss in the rear of a Mariposa street saloon, and which has turned out in its grists such permanent residents as Professor Young Dutchy and Contractor Reed of the Pacific Paving Company. Professor Dutchy has spent a couple of days or possibly a week in Fresno during the past year, and Contractor Reed has been in Fresno for several weeks enjoying the hospitality of the Triangle as the highest and most successful bidder for gutter plaster, etc.

SPEAKING of the enormous advantages yet to be secured to communities through the transmission of water power by electricity, the Washington Star says that "some of these days an apparently guileless stranger will secure rights giving him control of the enormous water power now wasting its energies in the vicinity of the great falls of the Potomac. Then he will establish a sufficient plant, and by means of wires transmit to this city controllable force sufficient to run all the machinery in the District of Columbia. This idea is not a new one—it has often been advanced by the Star, and has been practically demonstrated in Europe. Now it is about to be operated in California. A San Antonio [Pomona] company is having a power plant set up in the San Antonio canon, where there is a minimum flow of 1,300 cubic feet of water per minute under a head of about 400 feet. The water is conveyed to the power station in pipes, where it revolves a number of turbine wheels that are coupled to the armature shafts of as many alternating-current generators. From these through suitable wires 10,000 volts of electricity will travel to Pomona, thirteen miles away, and to San Bernardino, twenty-three miles distant, and in both places be used for the production of light and power. Where are the wide-awake Washingtonians?" In the San Joaquin river, twenty miles distant from Fresno, there is sufficient water power going to waste to furnish light, motive and manufacturing power for a city of twenty times the present size of this city. The wonder is that capital has not already been attracted by the immense value of that power, and steps taken to bring it to an industrial center that would from the start prove a profitable consumer.

THAT particularly energetic democratic journal, the St. Louis Republic, denounces Senator Morgan, who is one of the American arbitrators on the Bering sea tribunal as a "Ben Harrison Democrat;" and it declares in support of this charge that "during the whole of the Harrison administration Senator Morgan gave the administration his support against what had been his own party." The assertion that the able and courageous senator from Alabama opposed the policy of the majority of the Democrats in the United States senate throughout the administration of President Harison is true. It is also most creditable to Senator Morgan. "A Ben Harrison Democrat," according to the Republic, is a Democrat who believes in upholding American rights. Senator Morgan supported the administration in its demand for reparation for the cowardly murder of American seamen at Valparaiso; he is a firm champion of the Nicaragua canal, an advocate of the vigorous assertion of the just claims of the United States in Bering sea and an outspoken believer in the annexation of Hawaii. In brief, he is an American first and a Democrat afterward. That is why the Democratic newspapers which regard American ideas with contempt have singled him out for denunciation. Their attacks will add to the respect with which patriotic Americans have learned to regard him.

HARPER'S WEEKLY makes a practical suggestion to stock growers when it says that the sooner the farmers in the United States realize the fact that the ordinary and commonly bred horse is likely to deteriorate in value year by year, the better it will be for them. The use of cables to drag street cars has already reduced the service performed by horses in the cities, and the extension of the trolley system in the suburbs and the perfection of electric motors will relieve many other thousands of horses from such service. It has not been so very long since nearly all the threshing was done by horses; now only a very small percentage of even the threshing machines are worked by horse power. Practically all of the plowing is now done by horses, but a cheap and practical steam plow will be shown to visitors to the World's Fair, and it is not improbable that in ten years from now quite a large percentage of plowing will be done without the aid of horses. The need in the cities and on the farms for fewer horses will tend more and more to reduce their market value. Commonly bred horses will be the first to deteriorate in price; indeed, it is doubtful whether finely bred horses will suffer at all. There is no reason why they should. The purposes for which they are used will not be affected by any inventions revolutionizing methods of transportation or tillage. Even though we could fly in the air with a balloon entirely under control, a spin on the road behind a pair of trotters or a gallop across country would give just as much pleasure as ever it gave. The horses that get the blue ribbons in the horse shows will continue to be as valuable as ever, while humbler animals—those that drag street cars and plows—will be less valuable year by year.

THE frothy and furious organ of Boss Fahey seems to have struck the gait of its patron and benefactor very successfully. The Boss is a good judge of choice English, and must be highly pleased with the tone of his organ. The Boss' enjoyment of the service he is receiving is also heightened of course by the fact that it is being rendered by people whom he has for a year or two past referred to, when in his politest moods, as dirty blackmailers, traitors, sneaks and descendants of the brute creation. To person who glories in power and dominion over his fellows as Boss Fahey does, there could hardly be anything which would afford more intense pleasure than the sight of men who had opposed him and whom he had denounced as beneath contempt, wriggling on their bellies in the dust before him, and doing his bidding obsequiously and eagerly. Boss Fahey will be severely panged by disappointment when he is defeated, but the campaign will have one memory which will go far towards dulling the keen edge of that disappointment.

FRESNO'S SOCIAL SWIM

Lent is Over and All May Rejoice.

ATHLETICS STILL THE FAD

Two Important Social Events to Come—"Patience" and the Carnival.

Today is the last of Lent, and it has been a Lent that will be remembered with pleasure by many people. In spite of the fact that the season is supposed to be one of "sackcloth and ashes" the majority of the people seemed inclined to rejoice rather than repent, which may or may not be considered a good sign. Excepting a week or two Lent was as interesting from a social point of view as any other time of the year. While no events occurred at which our 400 have turned out in a body, they have been represented quite well here and there. The season of repentance being over, however, the various social organizations will see to it that the ante-vacation months are pleasantly employed. The 89 20 club, Cotton club, New England society and other organizations will soon be heard from and their functions will be as swagger as should be expected.

What an eruption of Easter finery there will be today! Not since many years have the styles been so bright as they are this season. Some of the bonnets are truly chromatic marvels and one might imagine many of them to be palettes from a painter's studio. And the shapes! I inspected a milliner's stock the other day and could find no two hats of the same shape. Right here I wish to call attention to something that may not have been noticed by the casu l observer, and that is that the proportion of well dressed women is larger in Fresno than in any other city in the state, excepting San Francisco.

The athletic fad has shown an unexpected permanency and it really seems as if the women were engaging in physical culture more because they believe it beneficial than because it is the fashion. Physical culture for women, however, is still being opposed by a lot of fossils, who believe woman's sole mission is that so tersely stated by Iago. One of these back numbers, speaking of a recent exhibition of their athletic skill by a number of woman, says:

At a recent exhibition of their acquirement in this new fad, running jumps from the spring board, high kicking and work on the flying rings were prominent features. Marching and fancy steps, with dumb bell exercises by the class, came first. In the running high jump the Misses Nutting and Elliot showed considerable proficiency. Then a quartet of attractive looking young women made a tambourine tinkle, although it was suspended six feet in the air. Misses Potter and Parsons stopped at this height, but Miss Alice O. Nutting of Northampton, Mass., and Mrs. Antiedale kept on, and tied at six feet eight inches. Close work followed on the traveling rings, some tests of endurance being shown by the fair athletes as they circled the gymnasium. Besides violent exercises there was an exhibition by the class showing the relaxing system practiced in the gymnasium for women, the initiatory movement being a hop and the terminal an easy, graceful swing. Club swinging by Miss Alice Nutting concluded the exhibition.

Fancy wedding a woman who, as a bride, can kick six feet and eight inches, and has not yet acquired full proficiency, and is as well an adept on the flying rings and is possessed of a knowledge of the "relaxing system." How could one pasily a bride of this caliber after a "low jinks?" This fad should be met with the severest repression by the superior sex.

An event that will be largely attended is the carnival to be given at the armory next Tuesday, Wednesday and Thursday evenings by the guilds of the Episcopal church. It will be something beyond the ordinary, and if the visitors do not enjoy themselves they must be hard to please, indeed. There will be a number of booths presided over by the fairest of Fresno's fair ones. At the flower booth, rare plants from San Francisco, Sacramento, Fresno and other cities will be on exhibition. Miss Fanny Helm will preside at the Turkish booth, and it is stated she and her assistants will be in costume. At the ice cream booth there will be a representation of a New York winter, and Mrs. O. K. Kirby Jr. will be the queen at the Gypsy camp. A pretty Fresnoan will for the time merge her identy into "Rebekah," and the liquid she will dispense at the well will bear a close resemblance to lamonade. The children have also been provided for and one of the features for their entertainment is a fish pond. There will also be other attractions for them. Mrs. O. K. Kirby Jr. will ring Tuesday and Wednesday evenings. Gilbert's drama, "Sweethearts," will be produced. Mr. and Mrs. C. M. Pyke, DeWitt Parsons and fifteen beautiful young ladies will appear in the pantomime, "The Magic Mirror." On Thursday evening there will be a promenade party. A complete orchestra will be in attendance each evening. There will also be other novel features. The affair is under the management of Miss James M. Long.

Colonel and Mrs. Theo C. Marcean left San Francisco Friday afternoon on the Alameda for Honolulu and Australia. A large number of friends saw them off at the pier and I am informed that their cabin was a mass of flowers, sent by their many friends. At the last moment Mrs. Marcean decided to take her little son, Allan, with her, the youngster expressing vigorous objections to being left behind. The Marceans will visit China and India and may go up to Egypt. Thence they will proceed to Europe, visiting the places they failed to see during their trip last year. The tour will require about seven months.

Tomorrow (Monday) evening Gilbert & Sullivan's "Patience" will be produced at the Barton by Fresno talent. The affair is a testimonial to C. M. Pyke by his many friends and there is every indication that it will be a grand success in every particular. The rehearsals have been conducted under the supervision of Mr. Pyke himself and he has attended to all the necessary preliminaries. Having had many years experience as a manager and artist it is but natural to suppose he has brought the people engaged in the production to a high state of proficiency. The final rehearsal was held last night and proved a most satisfactory one indeed. The principals gave a spirited performance and the chorus showed thorough training. If the performance on Monday night is as good a great bit will be scored. Mr. and Mrs. C. M. Pyke, whose reputation as professionals is well known, are cast in the opera. It will be a great pleasure to many to see and hear the charming "Louise Manfred" again. Mrs. Lydia Warren Roberts with her excellent voice and experience will add much to the strength of the performance. Mrs. Kirby has one of the sweetest voices in Fresno and those who expect much from her will not be disappointed. But, it is impossible to mention every one, though all deserve it. The loges and boxes have all been sold already, I hear, and there is a lively demand for seats. It will no doubt be the best amateur performance ever seen in Fresno.

EDITOR REPUBLICAN.—Having read on several occasions in your paper that Fahey's hotel was stuffed with illegal voters, for the purpose of securing the election of Mr. Fahey as trustee of the Fourth ward at the forthcoming election, I, as bookkeeper for the hotel, aver there is not a man boarding in the hotel that is not regularly and bona fide on the books, and must and does pay for what he gets. HEATH AND POLLEY.

A Motion to Quash the Indictments.

THE PRISONERS INTERVIEWED

Heath Describes How He Was Arrested by Captain Callundan of Morse's Detective Agency.

Richard S. Heath and Frederick W. Polley were brought into Judge Holmes' court yesterday morning for arraignment. They were represented by W. W. Foote, James H. Budd, R. B. Terry, W. D. Grady and A. C. Williams.

Mr. Foote moved to quash the separate indictment against Heath and the joint indictment against Heath, Polley and John Doe. The following is a verbatim report of his motion:

THE MOTION TO QUASH.

First—That it is not found or endorsed or presented as required by sections 940, 943 and 944 of the Political Code of California.

Second—That all the names of the witnesses examined before the grand jury, or whose depositions may have been read before them, are not inserted at the foot of the indictment or indorsed thereon.

Third—That a person was permitted to be present during a session of the grand jury when the alleged charge embraced in the indictment was under consideration, and that said person was not such as is provided for in section 925 of the Penal Code.

Fourth—That the defendant had not been held to answer the charge in said indictment herein, No. 892, or any other criminal charge before the finding of the said indictment, and that the notice of drawing of the grand jury was not given and that the drawing was not had in the presence of the officers designated by law.

Fifth—That the grand jurors of whom it is claimed the alleged grand jury which found the alleged indictments filed herein was made up, was not drawn as required by law, in this:

a. That there was not in the month of January, 1893, an order made by the superior court for the county of Fresno, designating the estimated number of grand jurors and also the number of trial jurors that would, in the opinion of said superior court, be required for the transaction of the business of the court and the trial of causes therein during the ensuing year, as required by section 204, C. C. P.

b. That the board of supervisors did not immediately (if any order in the particular mentioned in the first clause was made,) select any list of persons to serve as grand jurors, and also a list of persons to serve as trial jurors in the superior court of said county during the ensuing year, or until the lists of jurors should be provided, and that any selections and listings, if made, were not of persons suitable or competent to serve as jurors, who stood assessed in said month of January, 1893, in the last preceding assessment roll of such county of Fresno, and that said board of supervisors did not in making selections, if any made, take the names of such only as were not exempt from serving, who were in possession of their faculties and not infirm or decrepit, or of persons of fair character and approved integrity and of sound judgment, as required by section 205, C. C. P.

c. That the list of jurors—if any were made, and required to be made as provided in section 205, C. C. P.—did not contain the number of jurors, which had been designated, if at all, by the court, by any order that was made (if any order was made) and that the names of such lists were not selected from the different wards or townships of the county of Fresno, in proportion to the number of inhabitants therein, as nearly as the same could be established by the persons making the lists, if any were made, and were not kept separate and distinct, one from the other, as required by section 206, C. C. P.

d. That the certified lists, if any were made, of persons selected to serve as grand jurors and as trial jurors, were not at once placed in possession of the county clerk, as required by section 208, C. C. P.

e. That the county clerk for said county, if he received such lists, did not file the same in his office and write down the names contained therein on separate pieces of paper of the same size and appearance, and fold each piece so as to conceal the name thereon, and did not deposit the pieces of paper having on them the names of the persons selected to serve as grand jurors in a box to be called "The Grand Jury Box," and those having on them the names of the persons selected to serve as trial jurors in a box called "The Trial Jury Box," as required by section 200, C. C. P.

f. That there is not of record, as this defendant is informed and believes, any order of the superior court setting forth that in the opinion of the court the public interest must ignore, or directing, a grand jury to be drawn; or make or file with the county clerk such order, or an order directing a grand jury to be drawn, or designating the number to be not less than twenty-five nor more than thirty, nor designate therein the time at which such drawing would take place; nor were the names of the grand jurors drawn on the list of names certified and summoned as provided for drawing and summoning trial jurors, and the names of any persons drawn who may not have been impaneled upon the grand jury gain place in the grand jury box, as required by sec. 241, C. C. P.

g. That the provisions of sections 242 and 243, C. C. P., were not complied with.

Sixth—Because the individual members of the grand jury which found the the aforesaid indictment against this defendant, were at the time they were impaneled as grand jurors and at the time they found the said indictment incompetent to act as grand jurors in the finding of said indictment, for the reason that there existed a state of mind on the part of each of them in reference to this case, and in reference to this defendant, which prevented them and each of them from acting impartially and without prejudice to the substantial rights of this defendant in the finding of said indictment.

Seventh—That in the investigation of the charge in said indictment, both in its presentment and indictment, the said alleged grand jury received evidence other than such as was given by witnesses produced and sworn before them, or furnished by legal documentary evidence of the deposition of witnesses, in the cases mentioned in the third subdivision of section 686, penal code; and received other than legal evidence and the best evidence in degree and did not exclude hearsay, or secondary evidence, contrary to section 919, penal code.

WITNESSES TO BE SUMMONED.

Heath's attorneys asked that the members of the late grand jury, the late board of supervisors and the ex-county clerk be examined in relation to the points made in the foregoing motion.

The sheriff on being asked how long it would take him to serve subpenas on the witnesses mentioned replied that it would take about ten days.

THE CASE POSTPONED.

The court set Friday, April 14th as the time for the defendant to prove the allegations of his motion, and ordered that the sheriff be instructed to serve supenas upon all the members of the grand jury who presented the indictment, A. C. Williams, former county clerk, and all the members of the board of supervisors of this county, commanding them to be present in court on the day mentioned. The same order was entered as to W. F. Polley.

L. W. Mcaltrie, of counsel for Polley, made a similar motion, and the same cause was taken regarding his case. It was agreed that Heath's attorneys should first examine the grand jury.

AN INTERVIEW WITH POLLEY.

A REPUBLICAN reporter called at the jail yesterday and had a talk with F. W. Polley. The prisoner occupies a large room up stairs with two beds in it and is very comfortably situated. He is a man of apparently not more than 30 years of age, of medium height and build, and with blue eyes and light mustache.

He complained that both he and Sheriff Scott had been misrepresented by the Expositor in the publication of the statement that visitors had not been permitted to see him. He said:

"I have no statement to make regarding the charge on which I am confined here, except that I know nothing of the McWhirter murder and am entirely innocent of any charge in connection with it. It has been published that I have made a confession in this matter. That is not true. I have made no confession because I have nothing to confess.

"I must say on behalf of Sheriff Scott that he has always treated me well and that whenever I have expressed a desire to see anyone the sheriff has always allowed them to visit me. I have never been denied any request of that kind.

"It has been stated also that two persons representing themselves to be reporters of THE REPUBLICAN and of the Expositor interviewed me recently and that jailer Connolly introduced them as such. That statement is not true. I was interviewed by only one man, and he represented himself to be a REPUBLICAN reporter. I had requested Jailer Connolly to send me a REPUBLICAN reporter and he promised that he would. In the mean time he went out to supper and Deputy Sheriff Barr took his place, and while he was on watch the man came in and talked with me. I made no confession to him or to anybody else, because, as I said before, I have no confession to make, knowing nothing about the murder."

"What name did he give you?" was asked.

"I can't remember the name, but he wore brown or gray clothes. I have since learned that he was a detective. I saw him this morning in court sitting alongside of C. J. Stilwell, the Examiner reporter."

A CHAT WITH DICK HEATH.

Richard S. Heath occupies a room adjoining and connected with the jailer's office on the first floor. He greeted the reporter cordially and was apparently in the best of health and spirits.

"The Keely cure is a good thing," he said. "I never felt better in my life before. My nerves are all right. This arrest has not disturbed me a bit, because I know nothing at all about the murder and am entirely innocent of any participation in it. There's nothing in it whatever. Everybody who knows me knows that if I wanted to kill a man I wouldn't go in the dark to do it.

"My treatment in this entire matter has been very peculiar, to say the least. On the day of my arrest I started from Collins' place on the corner of California and Montgomery streets and was walking down Montgomery toward Sacramento street, when a man whom I knew by sight overtook me, tapped me on the shoulder and said, 'I place you under arrest.'

"I thought he was joking and we walked along a little ways, and I said, 'I guess I'll go up stairs and see my friend Crooks.' This man said, 'I guess you don't want to see Crooks; I want you to come along.' Still thinking it was a practical joke I turned down Sacramento street with him and as we turned the corner I asked him his name. He said it was Callundan, one of Detective Morse's men.

"Then I asked him whether he had a warrant. He told me that he had, and produced it and let me read it. As we came by Carpey's store I wanted to go in there and see him, but Callundan said, 'If you don't behave and come along, I'll put the handcuffs on you.' Then asked Callundan to step around with me to the Liverpool, London and Globe Insurance Company, so that I could notify my brother of my arrest. I explained that my mother was 63 or 64 years old, and I wanted to send her word by my brother that I had left town on business for a few days, so that she might not worry over my absence. But he refused that.

"I inquired where he proposed to take me, and he replied that we were going to the Oakland mole, where he would deliver me into the custody of an officer who would take me to Fresno. He said that when we got to the wharf he would allow me to write a note to anybody I pleased, and that he would see that it was promptly delivered. On my asking him how soon it would be delivered, he replied that it would be delivered by 7 o'clock that evening.

"When we crossed the bay and arrived at the Oakland mole we found C. J. Stilwell of the Examiner and Detective McFarlane of the Morse Agency waiting for us, and I was given in charge of the detective and taken here. Just before leaving Callundan on the mole I impressed upon him the necessity of delivering the note by 7 o'clock that evening, and he declared that he was a gentleman and had given his word of honor and that I need have no fear on that score.

"I learned afterwards that Callundan, instead of delivering my note, had brought it to the editorial rooms of the Examiner where it was opened and its contents published the next morning.

"My mother did not know what had become of me until the next morning when she read in the Examiner the account of my arrest, and she did not receive the note until 10 o'clock that same morning."

Heath in conclusion said that he had been well treated by Sheriff Scott and his deputies, and that all his friends had free access to him.

"For a long time I suffered with stomach and liver troubles, and got no relief until I began to use Ayer's Pills. I took them regularly for a few months and my health was completely restored." —D. W. Baine, New Berne, N.C.

The Bostonians.

That there is one group of artists interpreting light opera in America, to which the highest encomiums are not misapplied, is a matter upon which the general amusement public may congratulate itself. They are the Bostonians, over whose business and artistic affairs Henry Clay Barnabee, Tom Karl and W. H. MacDonald preside, and they conduct the best operatic company in this country. This organization, the coming of which is always a delightful event, and which, by the way, will not again visit the Pacific coast for three years, will appear at the Barton opera house on Monday evening, April 17, presenting DeKoven & Smith's ever popular "Robin Hood."

The prices of the Bostonians this season range from 50 cents to $2, and the management announces without any buncombe that this is simply an inevitable business requirement. They maintain an organization of eighty people embracing the highest salaried singers obtainable, full chorus and orchestra, and they carry two carload of special scenery and costumes, which entails an expense of $6000 weekly, while the ordinary traveling combination gets along readily on $2000 a week. In view of this exposition of the business affairs of opera management it cannot be considered as other than reasonable that the Bostonians ask only 50 cents more than the usual traveling combination.

A great many tickets have already been sold for the Carnival Tuesday and Wednesday evenings, and it is expected that Armory Hall will be packed as it has never been packed before.

A FRESNO VENUS.

The County of Grand Climate to the Front.

A COMPETITOR FOR THE STATUE

The Ice Broken for the Glory of the Queen City of the Plains.

The competition among beautifully formed women to be used as the model for the statue of the best formed woman in California to be exhibited at the World's Fair in Chicago has brought to the public view a good many roses that had hitherto blushed unseen.

The San Francisco Examiner and the Stockton Mail have reproduced cuts made of photographs of well formed women whom artistic taste decrees are worthy of admiration.

Fresno is modest, but it can produce as many beautiful women to the acre in proportion to population as can any other city on the Pacific Coast or in the rest of the United States, and Fresno does not propose to be left behind in the beauty show.

Ladies who bare their arms and busts without hesitation in the ball room are somewhat loth to pose in a classical fashion before the camera, even although there may be nothing in the least suggestive of indelicacy, but the reputation at Fresno is at stake, and the ice having been broken, it is expected that several more modern Venuses de Medici will enter the lists.

The picture below is taken from the photograph of a young lady resident of this city. It is to be regretted that the engraver did not do full justice to the original or the photograph, the forearm being out of drawing and the wrist being too thick. The wrist and ankle, as shown in the photograph, are small and delicate, but the cut gives a good idea of the young lady's proportions.

The following are the measurements: Right five feet, four inches; waist 25½ inches; arm 11 inches around the largest part; calf 13½ inches; leg 25½ inches; bust 36 inches; hips 39 inches; length of arm 25 inches; neck 14 inches.

The young lady's name is withheld at her request. The list is now open, and it is expected that some of those who can display a better physique will strike a graceful attitude and let the camera and THE REPUBLICAN do the rest. All photographs sent to THE REPUBLICAN must contain the full name and address of the lady, otherwise no notice will be taken of them.

MALARIA.

Dr. Brown Speaks Some Plain Facts.

In a half hour's interview with this very busy specialist at the Radical Cure Dispensary, 1745 Mariposa street, concerning the wonderful discovery for the eradication, cure and prevention of malaria by absorption or inoculation.

In his effort to benefit the afflicted he desires the public to think for themselves—to come personally to the dispensary and investigate his treatment that has cured so many elsewhere.

Convincing proofs await those with a mind of their own who will intelligently use it and not be deterred or governed by the scolling, bydebound, moss-grown, old-fogy practitioners, who, though living for years and breathing with you this dread poison malaria, have made but faint effort toward stamping it out, yet ready with glib tongue to defame and traduce those coming who possess the requisite skill to accomplish what they cannot, and we are assured were it possible they would keep you in the dark, for once the public becomes enlightened they know the mask must fall, exposing their ignorance, stupidity and neglect.

Dr. Brown invites the afflicted to come and investigate personally one and all. The treatment practiced by Dr. Brown will at once commend itself to you.

Based upon common sense science you will, when explained readily understand how by absorption (the system taken up) of this wonderful antidote which entrees directly into the venous circulation thus instantly arrestingthe malaria poison in the blood.

The process of inoculation is not new, but this special method and drug action belongs exclusively to the discoverer, Dr. Brown, who promises you a Radical Cure, leaving the system cleansed and proof against further attack.

RUN ON A DRUG STORE.

Thousands of Cans of Cream Distributed.

A few days ago the St. Charles Cream Co. caused to be inserted in THE REPUBLICAN an advertisement stating that the holder of a coupon attached to the ad. could secure, free of charge, at Smith Bros., leading druggists, corner of Tulare and I streets, a can of their delicious cream. That day Smith Bros. store was besieged with visitors. Thousands of cans of the St. Charles brand of cream were thus distributed among the housewives of Fresno and vicinity. The merits of this pure cream are such that those giving it a fair test will be sure to use it ever after. The St. Charles Evaporated cream is perfectly sterilized, easily digested and the best produced. Its success in Fresno as elsewhere is assured.

THE BEST WAY.

No Deception at the Poor Man's Friend.

Merchants differ in their methods of attracting custom as much as in the quality, style and value of the goods they carry in stock.

In this matter the Poor Man's Friend White Front Stores have always adhered to the uniform policy of telling the truth in their advertisements, believing that to be the best, as well as the only honest way. No promises of giving $2 for $1 are made by this house. No advantage is taken of the ignorance of some buyers as to merchandise values. On the contrary the one uniform rule is carried out of selling only standard goods at the closest possible margin. People learn to respect and have confidence in a house that thus treats them fairly. This fact is shown by the prosperous and growing business of the Poor Man's Friend White Front Stores.

RESULTS OF THE FLOOD.

Great Damage and Also Some Good.

Considerable property has been destroyed by the recent inundation of the southern part of town, and several suits will probably be brought against the city for damages, but as the water communications with the mountains enabled Redden & Colline to float down wood and save transportation charges, a great reduction in prices is expected and much money will thus be saved to the consumer in case the creamatory drier recently purchased from the city, which is now in operation works all right in drying out the water soaked wood; in the meantime we will continue to furnish our customers with our second growth oak.
